## **DOCENTE:** Prof. MATTEO MESCHIARI

DOCENTE: Prof. MATTEO MESCHIARI	
PREREQUISITES	Cultural skills usually acquired in the five pre-university years are required
LEARNING OUTCOMES	Knowledge and understanding: Identifying methods of building geographical knowledge through direct observation, the use of questionnaires, interviews and data-gathering methods
	Applying knowledge and understanding: Using geographical tools, through analysis of general and thematic geographical maps, statistical and computer sources and subjective, literary and iconographical sources.
	Making judgements: Establishing and justifying personal value positions on geographic key concepts.
	Communication skills: Understanding basic vocabulary relating to human geography and being able to present geographic information in a variety of forms in primary school.
	Learning skills: Carrying out educational projects related to the environment, landscape and cultural heritage.
ASSESSMENT METHODS	Final oral exam. Practice exercises during the course will help students prepare for the final oral exam. Students are examined on their a) knowledge of the course contents; b) ability to analyze and exemplify geographic phenomena; c) communication skills and appropriate use of scientific terminology; d) critical evaluation and problem solving abilities. The score range of the oral examination is 18/30. CRITERIA FOR MARKING ORAL EXAMINATIONS: 30-30 cum laude (excellent): excellent knowledge of the course contents; very good command of scientific terminology; very good analytical skills; 27-29 (very good): very good knowledge of the course contents; good command of scientific terminology; good analytical skills; 24-26 (good): good knowledge of the course contents; good command of scientific terminology, though usage may not be flawless; good analytical skills; 21-23 (fair): acceptable grasp of basics in the course contents; limited linguistic resources make it difficult for candidate to display autonomous analytical skills; questions are usually understood, but rephrasing is often required; questions are usually answered relevantly, but frequent repetition and hesitation; some questions are misunderstood; 18-20 (poor): very poor knowledge of the course contents; no ability to reformulate and expand; questions are often misunderstood; answers are irrelevant and incomplete; little or no evidence of analytical and communication skills; (fail): unable to deal with any but the most basic questions, information is insufficient, inaccurate, and/or irrelevant.
EDUCATIONAL OBJECTIVES	The course aims to relate knowledge and geographic methods with teaching-learning processes.
TEACHING METHODS	Lectures, lab activities with practice exercises
SUGGESTED BIBLIOGRAPHY	1) G. De Vecchis, Didattica della geografia, Torino, UTET 2) M. Meschiari, Spazi Uniti d'America, Quodlibet.

## **SYLLABUS**

Hrs	Frontal teaching	
53	Presentation, Methodology, Goals. Geography and World Views. Environment, Space, Territory. Landscape and Landscapes. Migration, Diaspora, Globalisation Urban Geography. Reading spaces, landscapes and maps. The role of geography in the educational system and in the programs of primary school: orientation, the language of geography, the landscape, the region and the territorial system.	
Hrs	Workshops	
16	Fieldwork and practice in the instructional translation of the geographical knowledge gained during the course: practice exercises in orientation and instructional translation; geographical writing and instructional translation; landscape interpretation and instructional translation; analysis of regional and territorial systems through maps and instructional translation
