DOCENTE: Prof.ssa MARIA CONCETTA PARLATO

PREREQUISITES	basic knowledge of tax law.
LEARNING OUTCOMES	<p>Knowledge and Understanding The course aims to develop the ability to understand principles and notions of taxation law in an international context along with an improved knowledge of their implementation. Discover and understand interpretive dynamics concerning taxation of cross border income and assets while comprehending as well the rationale underlying the collaboration between tax administrations.</p> <p>Applying Knowledge and Understanding The aim of the course is to achieve the capacity to actually implement the knowledge attained, re-elaborate knowledge of European and International sources of law as introduced during the course, capacity to understand and deal with legal issues concerning cross-border taxation.</p> <p>Making Judgements The course aims to develop critical skills in dealing with the knowledge achieved during the course and after it, in order to make the proper evaluations while dealing with legal and interpretive issues involving the application of general principles of EU and International tax law.</p> <p>Communication skills To communicate and deliver the knowledge obtained in an exhaustive and convincing manner, with appropriate linguistic skills and correct terminology.</p> <p>Learning Skills To develop learning skills and improve access and familiarity with the sources of law and the appropriate regulations together with academic literature (doctrine) and case-law in order to be able to autonomously develop further studies in the field and to keep knowledge updated to the state of the art.</p>
ASSESSMENT METHODS	<p>Students attending the course will be evaluated on the basis of three presentations. The grades are on a scale from 18 to 30 for each presentation; the final grade will be the average of the result of the three presentations. Students that will not attend the course will take oral exams.</p> <p>The student will be minimum proposed three questions on all parts of the program, with reference to the recommended texts. The final grade aims to evaluate whether the student has knowledge and understanding of the topics and has reached interpretative competence and independence of judgment. The student will get a sufficient evaluation if he shows a basic knowledge and understanding of principal topics, at least in general outline and shows a basic knowledge of different issues studied.</p> <p>The higher the ability of the student to interact with the examiner, with his presentation and argumentative skills, the better he will show in-depth knowledge of the studied issues and therefore he will get an higher grade.</p> <p>30-30 L - excellent knowledge of the topics, excellent properties of language, good analytical skills; 26-29 - good mastery of the subjects, full knowledge of the language; 24-25 - basic knowledge of the main topics, discrete properties of language; 21-23 - he/she does not have full command of the main teaching subjects, but he/she has the knowledge of them, satisfactory properties of language; 18-20 - minimum basic knowledge of the main teaching and technical language issues; n. s. - he/she does not have an acceptable knowledge of the content of the topics covered in the teaching.</p>
EDUCATIONAL OBJECTIVES	<p>GOALS The course aims to develop the skills necessary to understand the principles of EU And International tax law which are essentials for an education aimed at European and International arenas in order to deliver the appropriate skills for the business world and perspective occupation or for further academic studies as well.</p>
