PREREQUISITES	Knowledge of the main events of modern history. To be familiar with basic secondary school maths.
LEARNING OUTCOMES	Knowledge and understanding: - SOCIOLOGY: Paradigms, leading contributors, major schools of thought, and key concepts of classic and contemporary sociology. - METHODOLOGY: Paradigms, approaches, techniques and methods for collecting and analyzing data in the social sciences. Applying knowledge and understanding: - SOCIOLOGY: The student must be able to read the transition from premodern to modern and postmodern society using the main sociological categories. He/she must be able to develop and use the sociological imagination in the analysis of relevant social phenomena and their change. - METHODOLOGY: The student must be able to properly design a social research. He/she must be able to make the right decisions regarding the following aspects: choosing the type of research, being able to carry out the operationalization of a concept; choosing the units of analysis (sampling); choosing and designing data collection tools. Moreover, he/she must be able to choose the most suitable approach and the most adequate techniques for collecting and analyzing data, given a certain research question. Making judgements: - SOCIOLOGY: To be able to understand problems and current changes in contemporary society using sociological categories. - METHODOLOGY: To be able to interpret and comment the main findings coming from data analysis. Communication skills: - SOCIOLOGY: To be able to internalize the specialist vocabulary of sociology. Ability of adequately use notions, categories and keywords concerning the discipline. - METHODOLOGY: To be able to write a research paper. Learning skills: - SOCIOLOGY: To be able to read and critically interpret the classic and contemporary sociological literature. To be able to attend advanced courses of sociology and to deal with the various branches of the discipline (sociology of culture, sociology of communication, political sociology, sociology of deviance etc). - METHODOLOGY: To be able to understand the methodological strategies used in most sociological literature. To be able to critically interpret a social research paper and the methodological choices adopted.
ASSESSMENT METHODS	Written exam The written exam consists of thirty closed and open-ended questions concerning the course subjects; it aims at assessing the student's knowledge of the course subjects and his/her problem-solving abilities. Marks: The final mark is determined by the number of correct answers. Each correct answer is equivalent to one point, until a maximum of 30 points. Wrong answers do not provide any penalization. The exam is passed if the student obtains at least 18 points.
TEACHING METHODS	Frontal lectures
