EDUCATIONAL OBJECTIVES	This course is aimed at allowing students to familiarize with basic philosophical research, highlighting its essential links with existential, cultural, social and ethical issues, which in many ways affect us. Pursuing this objective, we will particularly focus on few questions concerning, in the contemporary debate, the notions of "person", "common good", "communicative action" according to the aims of the Degree course in "Educazione di Comunità". At the same time, we will try to develop, addressing key philosophical issues, an intellectual and human training based on critical attitude, ability for in-depth analysis, openness to dialogue and sensitivity to social-pedagogical approach.
