PREREQUISITES	FUNDAMENTALS OF ECONOMICS AND AGRICULTURAL POLICY
LEARNING OUTCOMES	Knowledge and understanding The knowledge acquired should enable students to fit in research settings and to develop project ideas. Applying knowledge and understanding The knowledge acquired should enable students to participate critically to the institutional political debate and to formulate hypotheses for the solution of problems of local development. Making judgements students need to critically interpret the knowledge acquired. Communication students must be able to interface with experts in their fields. Lifelong learning skills Students must acquire modeself-study and be able to relate in more 'broad interdisciplinary contexts.
ASSESSMENT METHODS	Final exam consists of an oral discussion on the subjects studied during the course . A minimum of three questions will be posed to assess student's ability Grades range from 18 to 30. Minimum mark (18) is reached. When student shows a general knowledge and understanding of course subjects and ability to face very simple practical cases. Below this threshold the exam is not passed. The more the student will show knowledge and understanding of the subjects and autonomy in applying them, the higher the mark will be until 30/30 and praise.
EDUCATIONAL OBJECTIVES	The course aims to train students able to critically understand the political aspects of the CAP and EU policy linked to the agri-food system . The scenario is of globalization of markets and trade regionalization .
TEACHING METHODS	The course includes frontal lessons, practical exercises, workshop, study visits
