EDUCATIONAL OBJECTIVES OF THE MODULE

The course has as main objective the presentation of the basic institutions of commercial law, with particular reference to the rules of company and, in particular, of those based capitalist. Starting from the idea that the commercial law is a system of rules under which operators must guide their behavior, the course examines the discipline of corporate governance, like that of funding, distinguishing as to the type of company adopted by the shareholders. In addition, it analyzes the responsibility for bonds contracted by the entrepreneur and, therefore, in case of insolvency, bankruptcy proceedings. It analyzes, finally, the basic regulation of financial markets. In this sense, in addition to presenting tools, the course also aims to outline the basic concepts of business law in order to equip students with the necessary interpretative categories.
