

UNIVERSITÀ DEGLI STUDI DI PALERMO

DEPARTMENT	Medicina di Precisione in area Medica, Chirurgica e Critica		
ACADEMIC YEAR	2022/2023		
MASTER'S DEGREE (MSC)	DENTISTRY		
INTEGRATED COURSE	NEUROLOGY AND PSYCHIATRY - INTEGRATED COURSE		
CODE	17621		
MODULES	Yes		
NUMBER OF MODULES	2		
SCIENTIFIC SECTOR(S)	MED/25, MED/26		
HEAD PROFESSOR(S)	MONASTERO ROBERTO	Professore Associato	Univ. di PALERMO
OTHER PROFESSOR(S)	MONASTERO ROBERTO	Professore Associato	Univ. di PALERMO
	FERRARO LAURA	Ricercatore a tempo determinato	Univ. di PALERMO
CREDITS	6		
PROPAEDEUTICAL SUBJECTS			
MUTUALIZATION			
YEAR	4		
TERM (SEMESTER)	1° semester		
ATTENDANCE	Not mandatory		
EVALUATION	Out of 30		
TEACHER OFFICE HOURS	<p>FERRARO LAURA Monday 10:00 12:00 Via G. La Loggia, 1 primo piano</p> <p>MONASTERO ROBERTO Wednesday 13:00 14:00 BioNeC, via G. La Loggia 1, Complesso didattico "Aula Rubino", al termine delle lezioni di Neurologia</p>		

PREREQUISITES	In order to understand the contents and learning objectives of the course, the student must possess knowledge of the anatomo-physiological foundations of the CNS, neurotransmitter mechanisms, and the concepts of impairment, disability and handicap.
LEARNING OUTCOMES	<p>Knowledge and understanding skills Acquisition of knowledge and understanding skills related to higher psychic and cognitive functions, disorders of psychiatric and neurological relevance to the adult-elderly age, neurobiological and psychological etiological models, and the main therapeutic and rehabilitative intervention strategies for the treatment of neurological and psychiatric disorders. In addition, the integrated course aims to develop in the student knowledge of the diagnostic pathways and differential diagnosis of major neurological syndromes and mental disorders.</p> <p>Ability to apply knowledge and understanding Recognition of neurological diseases and mental disorders, diagnostic framing, clinical evaluation, and identification of therapeutic and rehabilitative possibilities suitable for the treatment of neurological and mental disorders.</p> <p>Autonomy of judgment. Development of the ability to recognize major pathological pictures and appropriate autonomy of judgment in relation to neurological and psychiatric diagnosis and choice of therapeutic and rehabilitative treatments.</p> <p>Communication skills Understand the meaning of verbal and nonverbal communication and be able to communicate acquired knowledge clearly.</p> <p>Learning skills. Acquisition of skills to make good use of the notions learned to navigate the field of understanding and recognizing neurological and psychological distress, in order to be able to continue to further these studies in the context of continuing education and training.</p>
ASSESSMENT METHODS	<p>Oral test. The test aims to assess that the student possesses knowledge and understanding of the topics of the integrated course program, autonomy of judgment, ability to apply the acquired knowledge, specific disciplinary language.</p> <p>Minimum number of questions: the student will have to answer a minimum of three questions, asked orally, covering all the topics of the integrated course program, with reference to the recommended texts.</p> <p>ORAL ASSESSMENT AND ITS CRITERIA The evaluation of the test is in thirtieths, as follows. - Grade: 30 - 30 cum laude - Assessment: Excellent - ECTS grades: Excellent (A - / A+) Outcome: Excellent knowledge of teaching content. Student demonstrates high analytical-synthetic ability and is able to apply knowledge to solve problems of high complexity. - Grade: 27 - 29 - Assessment: Very well - ECTS grades: Very good (B) Outcome: Excellent knowledge of teaching content and very good command of language. Student demonstrates analytical-synthetic skills and able to apply knowledge to solve problems of medium and, in some cases, high complexity. - Grade: 24 - 26 - Rating: Good - ECTS grades: Good (C) Outcome: Good knowledge of teaching content and good ownership of language. The student is able to apply knowledge to solve problems of medium complexity. - Grade: 21 - 23 - Rating: Fair - ECTS grades: Satisfactory (D) Outcome: Fair knowledge of teaching content, in some cases limited to main topics. Acceptable ability to use discipline-specific language and to apply acquired knowledge independently. - Grade: 18 - 20 - Assessment: Sufficient - ECTS grades: Sufficient (E) Outcome: Minimal knowledge of teaching content, often limited to main topics. Modest ability to use discipline-specific language and independently apply acquired knowledge. - Grade: 1 - 17 - Assessment: Insufficient - ECTS grades: Fail (F). Outcome: Does not possess acceptable knowledge of the main content of teaching. Very little or no ability to use discipline-specific language and independently apply acquired knowledge. Exam failed.</p>
TEACHING METHODS	Lectures with the support of ppt slides

MODULE NEUROLOGY

Prof. ROBERTO MONASTERO

Insieme ai libri sopra descritti, utilizzare il Materiale didattico (dispense, fotocopie, articoli scientifici e set di diapositive) preparato dal docente del modulo.

AMBIT	50449-Discipline mediche di rilevanza odontoiatrica
INDIVIDUAL STUDY (Hrs)	45
COURSE ACTIVITY (Hrs)	30

EDUCATIONAL OBJECTIVES OF THE MODULE

Knowledge acquisition regarding major neurological diseases/disorders, with particular attention to neuropsychiatric diseases with mixed pathology. The basic principles of neuroanatomy and neurophysiology of the central nervous system are included.

SYLLABUS

Hrs	Frontal teaching
2	Anatomy of clinical neurology
2	Major neurological syndromes
2	Cognitive functions and related neuropsychological tests
2	Neurological basis of behaviour
2	Diagnostic neuroimaging
2	Disorders of consciousness
2	Cerebrovascular disease
2	Neurodegenerative disease
3	Dementia and mild cognitive impairment
2	Primary headaches
2	Head injuries
2	Epilepsy
2	Demyelinating disease
Hrs	Practice
3	Multiple choices questionnaire for intermediate and final evaluation (2 meetings of 1.5 hours each)

MODULE PSYCHIATRY

Prof.ssa LAURA FERRARO

SUGGESTED BIBLIOGRAPHY

Manuale diagnostico e statistico dei disturbi mentali (DSM-5), American Psychiatric Association (APA). Raffaello Cortina Editore detiene l'esclusiva per la lingua italiana. ISBN 9788860306616
