EDUCATIONAL OBJECTIVES OF THE MODULE

The issue of the course will be metaphor, visual metaphor and artistic languages. The theoretical approach on metaphor is very ancient, but in the last 40 years, we have witnessed an extraordinary proliferation of theories and mental experiments that have metaphor as their object. The course aims to offer a brief reasoned path within Metaphor Studies showing its interest in all artistic languages.

EDUCATIONAL OBJECTIVES OF THE MODULE

The course aims at teaching how to face a philosophical text, in the original language and through the comparison with the Italian translation. From the specific aesthetic point of view, a concrete hermeneutical dialogue with the examined works shall take place. This bears on the assumption of the interrelatedness of history and philosophy. In frontal teaching and seminars the texts are analyzed focusing both on arguments and philosophical vocabulary. Active participation is strongly recommended.
