DOCENTE: Prof. PIERLUIGI MAZZAMUTO

PREREQUISITES	Possession of a basic culture related to the organization of civil society: division of powers; state structure; organization of the judicial system.
LEARNING OUTCOMES	<p>Knowledge and understanding: knowledge of the fundamental institutes of Italian public and private law. Acquisition of the technical language and conceptual framework suitable for representing and ordering the subject matter. Ability to apply knowledge and understanding: suitability to face the exegesis of regulatory provisions in full autonomy, to frame the concrete cases, reconstructing the discipline also in light of the related institutions, within a framework of systematic consistency e of interpretative adequacy. Autonomy of judgment: ability to reach non-transitional interpretative results, to subject to criticism the most consolidated orientations and theoretical positions in the light of social, economic and regulatory changes. Communication skills: mastery of technical language and heritage conceptual so as to be able to develop a suitable speech to indicate the technical arguments that support the interpretative solutions. Acquisition of a dual language register: the register practical-casuistry and the theoretical-speculative register. Learning skills: ability to adapt knowledge by analyzing regulatory texts and jurisprudential guidelines. Suitability to exploit the knowledge acquired during the course in the context of conferences, masters, in-depth courses, seminars and professional interviews.</p>
ASSESSMENT METHODS	<p>In itinere oral exam: the student will have to answer 3/5 questions concerning the topics covered in the first part of the course.</p> <p>Final oral exam: the candidate will have to answer a minimum of one question posed orally on each part of the program, with reference to the recommended texts and the lectures carried out. Students who have already taken and passed the in itinere exam will be examined exclusively on the topics covered in the second part of the course.</p> <p>The oral tests verify the student's learning level assessed by minimum grade of 18/30 to the maximum mark of 30/30 with honors, according to the following criteria: - 18-20 / 30: basic knowledge of each part of the program and language technical-legal; - 21-23 / 30: sure knowledge of the fundamental subjects of teaching but not full mastery, satisfactory language ability, poor ability to autonomously apply the acquired knowledge; - 24-25 / 30: in-depth knowledge of the main institutions, fair language properties, limited ability to autonomously apply the knowledge acquired in solving the proposed questions; - 26-29 / 30: good or more than good command of the topics and skills in-depth analysis, full ownership of language, ability to apply knowledge acquired to solve the proposed questions; - 30-30 and praise / 30: great mastery of the topics and in-depth studies, great or excellent language properties, great or excellent analytical capacity and ability to apply knowledge to solve the proposed questions.</p>
TEACHING METHODS	Frontal lessons

EDUCATIONAL OBJECTIVES OF THE MODULE

The course of public law has the purpose of acquiring an adequate knowledge of the Italian constitutional system (history, structure, institutions, evolution) also with reference to the European system to understand the institutions that most relate to tourism, in particular as regards the system of sources of law and administrative organization.

Specifically, it aims to study the classical elements and institutions of public and constitutional law with particular attention to the important transformations underway in the Italian legal system with particular attention to institutions relating to tourism
