VIENI SALVATORE

Tuesday 08:00 10:00 Studio Prof. Salvatore Vieni, presso Dipartimento di
Oncologia, piano terra.

PREREQUISITES	Knowledge of anatomy, physiology, biochemistry and general pathological processes of : Abdomen and Digestive System, Spleen and lymph-nodes, Chest and Diaphragm, Breast, Exocrine and Endocrine Glands.																					
LEARNING OUTCOMES	<p>Knowledge and understanding.</p> <p>At the end of the course the student will:</p> <ul style="list-style-type: none"> - Know the theoretical principles underlying the clinical method and evidencebased medicine of surgical pathologies. - Knowing how to correctly perform a complete clinical history of a surgical patient. - Knowing how to deal with the patient in a variety of environmental conditions, both in election and emergency. - Knowing how to perform a correct and complete physical examination of the patient, including both the general and systemic aspects and individual organs and systems. - Being able to approach patients: changes in swallowing, impaired digestion, evacuation disorders, gastrointestinal bleeding, acute abdominal pain. - Knowing how to detect and interpret critically the main symptoms and signs, and identify the most correct and appropriate diagnostic clinical and instrumental path. <p>Applying knowledge and understanding. Students will spend the knowledge acquired during the course directly into employment.</p> <p>Making judgments. Students will be able to evaluate in a rational and self-knowledge provided by the course and be able to set an argument based on evidence and information derived from the examination of the patient's body.</p> <p>Learning ability. Ability to continuously updated through the knowledge of the arrangements for consultation and interpretation of information sources (scientific publications, databases and computer resources)</p>																					
ASSESSMENT METHODS	<p>Oral test, Mark out of thirty, Evaluation, with the following criterion of the mark allocation:</p> <table> <thead> <tr> <th>Mark</th> <th>Evaluation</th> <th>Result</th> </tr> </thead> <tbody> <tr> <td>30 - 30 e lode -</td> <td>Excellent</td> <td>Excellent knowledge of teaching content; the student demonstrates high capacity analytic-synthetic, and is able to A - A+ apply the knowledge to solve problems of high complexity.</td> </tr> <tr> <td>27 - 29 -</td> <td>Very Good</td> <td>Very good knowledge of teaching and excellent content property of language; the student demonstrates ability B analytic-synthetic, and is able to apply the acquired knowledge to solve problems of media complexity and, in certain cases, also high.</td> </tr> <tr> <td>24 - 26 -</td> <td>Good</td> <td>Good knowledge of teaching content and good ownership of language; the student is able to apply the acquired C knowledge to solve medium complexity problems.</td> </tr> <tr> <td>21 - 23 -</td> <td>Satisfactory</td> <td>Fairly good knowledge of teaching content, in some cases limited to the main topic; acceptable ability to use the D specific language of the discipline and apply independently the acquired knowledge.</td> </tr> <tr> <td>18 - 20</td> <td>- Sufficient</td> <td>Minimal knowledge of teaching content, often limited to main topics; modest ability to use the specific language of E the discipline and apply independently the acquired knowledge.</td> </tr> <tr> <td>1 - 17</td> <td>Fail</td> <td>It does not have an acceptable knowledge of the main content teaching; very little or no ability to use the language((examination failed) F specific of the discipline and apply independently the acquired knowledge.</td> </tr> </tbody> </table>	Mark	Evaluation	Result	30 - 30 e lode -	Excellent	Excellent knowledge of teaching content; the student demonstrates high capacity analytic-synthetic, and is able to A - A+ apply the knowledge to solve problems of high complexity.	27 - 29 -	Very Good	Very good knowledge of teaching and excellent content property of language; the student demonstrates ability B analytic-synthetic, and is able to apply the acquired knowledge to solve problems of media complexity and, in certain cases, also high.	24 - 26 -	Good	Good knowledge of teaching content and good ownership of language; the student is able to apply the acquired C knowledge to solve medium complexity problems.	21 - 23 -	Satisfactory	Fairly good knowledge of teaching content, in some cases limited to the main topic; acceptable ability to use the D specific language of the discipline and apply independently the acquired knowledge.	18 - 20	- Sufficient	Minimal knowledge of teaching content, often limited to main topics; modest ability to use the specific language of E the discipline and apply independently the acquired knowledge.	1 - 17	Fail	It does not have an acceptable knowledge of the main content teaching; very little or no ability to use the language((examination failed) F specific of the discipline and apply independently the acquired knowledge.
Mark	Evaluation	Result																				
30 - 30 e lode -	Excellent	Excellent knowledge of teaching content; the student demonstrates high capacity analytic-synthetic, and is able to A - A+ apply the knowledge to solve problems of high complexity.																				
27 - 29 -	Very Good	Very good knowledge of teaching and excellent content property of language; the student demonstrates ability B analytic-synthetic, and is able to apply the acquired knowledge to solve problems of media complexity and, in certain cases, also high.																				
24 - 26 -	Good	Good knowledge of teaching content and good ownership of language; the student is able to apply the acquired C knowledge to solve medium complexity problems.																				
21 - 23 -	Satisfactory	Fairly good knowledge of teaching content, in some cases limited to the main topic; acceptable ability to use the D specific language of the discipline and apply independently the acquired knowledge.																				
18 - 20	- Sufficient	Minimal knowledge of teaching content, often limited to main topics; modest ability to use the specific language of E the discipline and apply independently the acquired knowledge.																				
1 - 17	Fail	It does not have an acceptable knowledge of the main content teaching; very little or no ability to use the language((examination failed) F specific of the discipline and apply independently the acquired knowledge.

EDUCATIONAL OBJECTIVES OF THE MODULE

The module aims to help the student to develop a method of reasoning and of work based on scientific evidence and on the rational and critical of the information collected with the patient's physical examination , with laboratory and instrumental methods . The student will learn the methodical approach to the patient with abdominal pathologies of surgical interest such as diverticulitis, inflammatory bowel diseases and parasitic diseases. The student will learn, also, the correct method of approach to abdominal trauma and surgical diseases of the stomach, small intestine, large intestine and pancreas, using them properly and critically the most important diagnostic methods, from the least invasive to the more invasive, in the light of the cost / benefit ratio, useful premise for subsequent integrated courses.

SYLLABUS

Hrs	Frontal teaching
4	Stomach and duodenum diseases
2	Small intestine: • Short Bowel Syndrome • Meckel's diverticulum and omphalo - mesenteric residues • Actinic enteritis
2	Chronic inflammatory bowel disease
5	Colon • megacolon • polyposis • Diverticulosis
6	Rectum and anal canal diseases
2	pancreas diseases
2	obesity
1	Sinus pilonidalis
2	Infectious and parasitic diseases of surgical interest
2	Spleen and lymph nodes diseases
2	Spleen and lymph nodes

EDUCATIONAL OBJECTIVES OF THE MODULE

The module aims to help the student to develop a method of reasoning and of work based on scientific evidence and on the rational and critical of the information collected with the patient's physical examination , with laboratory and instrumental methods .

The student will learn the methodical approach to the patient suffering from major abdominal conditions such as peritonitis, acute appendicitis, bowel obstruction, gastrointestinal bleeding, abdominal abscesses.

The student will learn, also, the method of approach to diseases of the breast, neck, thyroid and parathyroid, using them properly and critically the most important diagnostic methods, from least invasive to most invasive, in the light of the cost / benefit ratio useful basis for subsequent integrated courses.

SYLLABUS

Hrs	Frontal teaching
2	Clinical and instrumental diagnosis in surgery: • Diagnostic imaging • Digestive Endoscopy • biopsies and cytology
3	Acute abdominal pain. Peritonitis
3	Appendicitis
5	Clinical and instrumental diagnosis in surgery: • Diagnostic imaging • Digestive Endoscopy • biopsies and cytology
3	Gastrointestinal bleeding.
8	Breasts: • Semiotics • Instrumental clinical diagnostics in senology • congenital and developmental abnormalities Malformations • breast Inflammatory diseases • mammary dysplasia
2	Neck: • swelling • Cysts and fistulas
2	Thyroid: • Functional Semiotics • Instrumental Clinical Diagnostics • Gozzo • Thyroiditis
2	Parathyroid: • Instrumental Clinical Diagnostics • Hyperparathyroidism • Hypoparathyroidism
