<b>PREREQUISITES</b>	Students should know theories related to clinical interview
<b>LEARNING OUTCOMES</b>	<p>Knowledge and understanding Knowledge and understanding of techniques of clinical reports.</p> <p>Applying knowledge and understanding Application of theoretical and methodological skills to clinical contexts.</p> <p>Making judgements Acquisition of the capacity to work independently, with a critical and aware approach, demonstrating to know to take operational decisions in relation to the needs and the problems encountered in different situations.</p> <p>Communication Acquisition of skills of description and synthesis and use of an appropriate psychological lexicon.</p> <p>Lifelong learning skills Achieving an expertise in individual study. Achieving good ability to apply knowledge to solve concrete proposals situations.</p>
<b>ASSESSMENT METHODS</b>	The written examination which will consist of a report on a video, must ascertain the possession of skills and subject knowledge provided by the course. The video will be specified during the last lesson. The report (2.200 - 2.500 words) should be both consigned during office hours and send by email to <a href="mailto:paola.miano@unipa.it">paola.miano@unipa.it</a> at least 15 days before exam date (delivery for the first exam date in September is the 15th of July). Final assessment aims to evaluate whether the student has knowledge and understanding of the topics as well as he/she has acquired the capacity to interpret and independent judgment of concrete cases. The pass mark will be reached when the student shows knowledge and understanding of the subjects at least in general terms; he/she will also have presentation and argumentative skills as to allow the transmission of his/her knowledge to the examiner. Below this threshold, the examination will be insufficient. Grades are expressed in thirtieths.
<b>EDUCATIONAL OBJECTIVES</b>	The course will address the different ways of write the report of a clinical interview. The course will be taking into account the theoretical and methodological aspects and practical aspects.
<b>TEACHING METHODS</b>	Lessons Practical exercises related to clinical report.
