

UNIVERSITÀ DEGLI STUDI DI PALERMO

DEPARTMENT	Scienze Economiche, Aziendali e Statistiche					
ACADEMIC YEAR	2016/2017					
MASTER'S DEGREE (MSC)	ECONOMIC AND FINANCIAL SCIENCES					
SUBJECT	TRANSPORT LAW					
TYPE OF EDUCATIONAL ACTIVITY	С					
AMBIT	20979-Attività formative affini o integrative					
CODE	02442					
SCIENTIFIC SECTOR(S)	IUS/06					
HEAD PROFESSOR(S)	ROMANA NICOLA Ricercatore Univ. di PALERMO					
OTHER PROFESSOR(S)						
CREDITS	6					
INDIVIDUAL STUDY (Hrs)	114					
COURSE ACTIVITY (Hrs)	36					
PROPAEDEUTICAL SUBJECTS						
MUTUALIZATION						
YEAR	2					
TERM (SEMESTER)	2° semester					
ATTENDANCE	Not mandatory					
EVALUATION	Out of 30					
TEACHER OFFICE HOURS	ROMANA NICOLA					
	Monday 10:30 12:00 A partire dal mese di marzo 2020 e fino alla riprese delle normali attivita, il ricevimento si svolge attraverso la piattaforma Microsoft Teams, previa prenotazione. CODICE TEAMS PER ACCEDERE: 4t8lz74					
	Thursday 10:15 11:30 A partire dal mese di marzo 2020 e fino alla riprese delle normali attivita, il ricevimento si svolge attraverso la piattaforma Microsoft Teams, previa prenotazione. CODICE TEAMS PER ACCEDERE: 4t8lz74					

DOCENTE: Prof. NICOLA ROMANA

transport law. Applying knowledge and understanding: - Understanding of the reciprocal relationships between the different part special law in force and capacity to formulate the most suitable solution specific case. Making judgements: - Developping a critical approach about the transport law and ab relationship between special and general law. Communication skills:					
- Understanding of the reciprocal relationships between the different part special law in force and capacity to formulate the most suitable solution specific case. Making judgements: - Developping a critical approach about the transport law and ab relationship between special and general law. Communication skills: - Communicating knowledge in a comprehensive and with an adequaterminology in order to illustrate a legal specific matter. Learning skills: - Students will obtain an overall understanding of transport law and appropriate studying methodology, which will provide them with the capa undertake activities such as the consultation of relevant bibliographic, normative and case law material Students will be able to apply the specific knowledge in order to underta specialised studying paths. ASSESSMENT METHODS Oral final exams- Grades on a scale between 18 and 30 cum laude The evaluation will take place in conformity to the following evaluation grides a special season of the conformity to the following evaluation grides and the conformity to the following evaluation grides are conformed to the conformity to the following evaluation grides are conformed to the conformity to the following evaluation grides are conformed to the conformity to the following evaluation grides are conformed to the conformity to the following evaluation grides are conformed to the conformity to the following evaluation grides are conformed to the conformity to the following evaluation grides are conformed to the conformity to the following evaluation grides are conformed to the conformity to the following evaluation grides are conformed to the conformity to the following evaluation grides are conformed to the conformity to the following evaluation grides are conformed to the conformity to the following evaluation grides are conformed to the conformity to the following evaluation grides are conformed to the co	- Acquisition of an adequate knowledge of the rules and the basic principles of				
- Developping a critical approach about the transport law and ab relationship between special and general law. Communication skills: - Communicating knowledge in a comprehensive and with an adequal terminology in order to illustrate a legal specific matter. Learning skills: - Students will obtain an overall understanding of transport law and appropriate studying methodology, which will provide them with the capa undertake activities such as the consultation of relevant bibliographic, normative and case law material Students will be able to apply the specific knowledge in order to undertal specialised studying paths. ASSESSMENT METHODS Oral final exams- Grades on a scale between 18 and 30 cum laude. The evaluation will take place in conformity to the following evaluation grides are evaluated in the evaluation will take place in conformity to the following evaluation grides. - Excellent 30 -30 cum laude: excellent knowledge of the topics, excellent property language, excellent capacity of analysis; the student is able to a theoretical knowledge to real cases which are proposed to be analysed. It is also able to properly argue possible solution, including multiple alternation of the property analytical; the student is able to apply theoretical knowledge real cases which are proposed to be analysed. The students is able to adequately apply theoretical knowledge to real cases which are proposed analysed. - Good 24-25: Basic knowledge of the main topics, good property of lang the student shows limited ability to apply theoretical knowledge to real cases which are proposed to be analysed. - Satisfactory 21-23: the student does not show that complete command main teaching topics, although showing to know the basic knowledge; he shows satisfactory property of language albeit with a poor ability to adequapply theoretical knowledge to real cases which are proposed to be analysed.	- Understanding of the reciprocal relationships between the different parts of the special law in force and capacity to formulate the most suitable solutions to the specific case.
